Sight Deviation

ALSTON TRAININGS / DRILL CARD / FUNDAMENTALS - INTERMEDIATE - LIVE-FIRE

Prove that a rough sight picture plus a good press still hits.

SETUP

Distance: 5 yd

Rounds: 5

Par: None

Target: 5-inch circle

Start: Aimed in

THE DRILL

1. Fire 1 shot with a perfect sight picture, front sight centered in the rear window.

2. Fire 1 with the front sight pushed to the right edge of the window.

3. Fire 1 with it pushed to the left edge.

4. Fire 1 with it high in the window, then 1 with it low. Keep it in the window and press well every time.

THE STANDARD

All 5 stay in the 5-inch circle. The takeaway: trigger matters more than perfect alignment up close.

Safety: Live-fire at a range with a safe backstop. Keep the muzzle downrange throughout.
